

WASTE COLLECTION BINS

Plastik Koli is the biggest producer of Waste Collection Bins in Turkey and also exports high quality products to many countries all over the world with great success since many years. Waste Collection Boxes are made from Polypropylene (PP) Corrugated Sheet and widely used in Recycling Industry, Municipalities, Schools, Government Buildings, Offices and Homes.

Custom cut, custom design, custom printing is available and also Corona & Uv treatment can be applied to these boxes depending on customer's request.

Plastik Koli also applies high quality printing on Waste Collection Boxes with high capacity printing machines with experienced staff since many years.

WHY MOST OF MUNICIPALITIES & RECYCLING COMPANIES USE PP WASTE COLLECTION BINS

- 100% Recyclable (Environmentally Friendly)
- Reusable (Cost effective)
- Waterproof / Washable (Easy to Clean)
- Light weight but strong and durable (Much more durable than cardboard)
- Non toxic and has resistance to chemicals
- Printable (Big plus for company advertisement & brand awareness)
- Easy to collect wastes & to empty the wastes
- Custom color, size and thickness is available

This material gives you perfect solution to collect the wastes.
Waste recycling boxes mostly used as 35x35x70cm and 40x40x90cm.
Also can be produced any size upon your demand.

Let us help you to make the world better and cleaner with our waste collection bins.
